30 August 2018

**Revision of pass marks for the season 2018/2019**

Dear all,

The NTC and the SAFSA council are in the process of revising all of the required pass marks for Division A skaters wanting to qualify for the national championships. This is due to the ISU changing the base values and the additional program changes and +5 -5 implications. The council has agreed to review the pass marks based after the KZN IP. Please note that the revised pass scores will be back dated to the start of this season. Provincial committees are therefore advised to not submit test accreditation forms for marks achieved at the KZN IP until the final pass marks for the season have been confirmed.

Kind Regards

Etienne Dreyer  
Chairman: NTC  
South African Figure Skating Association
